ART ON THE PLAYA

Squares on the playa.

The way it was and still is...at least for the world's biggest rock festival: Black Rock City. This year's event, which opened its gates for another six days of mayhem, was another classic mix of music, art, technology, and community-building. But as the event comes to a close, it's time to reflect on what made it so special.

In this week's issue, we'll take a look at some of the highlights of the festival, from the music to the art installations. We'll also explore the impact that Black Rock City has had on its participants and the wider community. And, of course, we'll have all the latest news and reviews from the festival.

So sit back, relax, and enjoy another edition of Black Rock Gazette. We hope you have as much fun reading it as we did putting it together.

- The Editors
